

So many costumers expend a hundreds of Dollars in Hi-Res cameras, and Hi-Level DVRs, but try to save some money on lenses. That's a big mistake!

Even some person has a 20/20 vision; if glasses are low quality his or her vision will be compromised.

The lenses are fundamentals to achieve a good image and so a good CCTV System.

FEATURES

- 100% Crystal Optic
- Aluminum body
- Low optic distortion.
